Q search

Submitting Assignments

1. Go to the Assignment page for your class.
2. Select the assignment you want to submit.
3. Select "Submit Assignment."
4. From the menu that appears, select a method of submitting the assignment: File Upload, Textbox Entry, Website URL, or Google Doc.
 - a. See the image to the right for an example of this menu.
5. If you want to, write a comment in the Comment box near the bottom of the menu.
6. Click "Submit Assignment" below the Comment Box.

If you need to resubmit an assignment, go back to the assignment page. From there, follow steps 3-6 again.

If your assignment is discussion-based, there won't be an assignment page. Instead, you'll need to [post in a discussion thread](#).

Due Dates and Late Assignments

Your teacher is able to set due dates for various assignments in Canvas. You can see these due dates in multiple places throughout the class, including on the Grades page and on any related modules.

If you turn in the assignment after the set due date, it will show up as late in Canvas. However, this does not necessarily mean that your grade will go down. Different teachers have different ways of handling late assignments, and Canvas does not automatically deduct points for late assignments. Contact your teacher if you have any concerns about late assignments

Posting in Discussion Threads

Depending on your teacher and class, responses may be hidden until you post a reply. Contact your teacher if you have any questions or concerns regarding class discussions.

1. Go to the page for the relevant discussion.
2. Click "Reply" under the discussion prompt.
3. Add your post.
4. Click "Post Reply."

To reply to someone else, click "Reply" at the end of their post.

If you want to add an image or video to your discussion post, check out [how to add images](#) or [how to add other forms of media](#).

This is a graded discussion: 5 points possible

on lap 5

Share your content

on lap 5

1. Read and follow the instructions for this module's project assignment: [uploading your content](#).
 2. Create a draft of the assignment submission.
 3. Upload your draft to [the shared 16, 2019 Google Drive folder](#) or for your classmates to read, learn from, and comment on.
- NOTE: Be sure to name your PDF files with a new name, such as "ExampleStoryboard content.pdf" if your storyboard was called "ExampleStoryboard".
4. Post in this discussion a link to your file.
For example: [link shows a link stream via a file](#) in the folder. (For more info, see [Sending files in Discussions](#).)

You can also paste the actual link text into your post, but if you do, ensure that the link text is hyperlinked so that classmates can click on it (vs. copying and pasting it into a browser), like this: [https://www.scribd.com/document/441652836/ExampleStoryboardContent.pdf">https://www.scribd.com/document/441652836/ExampleStoryboardContent.pdf](#)

You and your classmates will [receive constructive feedback on the content drafts](#). Use the feedback on your draft to improve it before submitting the final version to be graded on your content.

Adding Media to Your Discussion Post

To insert media, such as a Youtube video, into your discussion post:

1. Click the Insert/Edit Media icon on the menu bar above your post.
2. On the General tab, copy the URL for your media into the Source text box.
3. If you have an Embed code to use:
 - a. Go to the Embed Tab.
 - b. Copy your Embed Code into the text box.
4. Click Ok.

Adding Images to Your Discussion Post

To add an image to your discussion post for your classmates to view, click the Embed Image icon on the menu bar above your post. From this menu, there are four ways to add your image.

If you are using an image from a URL:

1. Select the URL tab.
- * The URL tab is the default tab on the Embed Image menu.
2. Copy your URL into the URL text box.
3. Adjust the dimensions as needed.
4. Click Update.

If you are using an image from a file on Canvas:

1. Select the Canvas tab.
2. Navigate to your image using the folders.
3. Adjust the dimensions as needed.
4. Click Update.

If you are uploading an image file to Canvas:

1. Select the Canvas tab.
2. Navigate to the folder you want to upload the file to.
3. Click Upload File.
- * This adds the file to the selected folder for future use.
4. Navigate to your image file and click Open.
5. Adjust the dimensions as needed.
6. Click Update.

If you want to use an image from Flickr:

1. Select the Flickr Tab.
2. Search for the kind of image you want.
3. Select your image from the search results.
4. Adjust the dimensions as needed.
5. Click Update.
